

B572 Surface-Mounted Adjuster - Cross-Hole Type (PAT.P)

Adjuster cap

Adjuster seat

B572-25-WH

B572-25-BL

Features

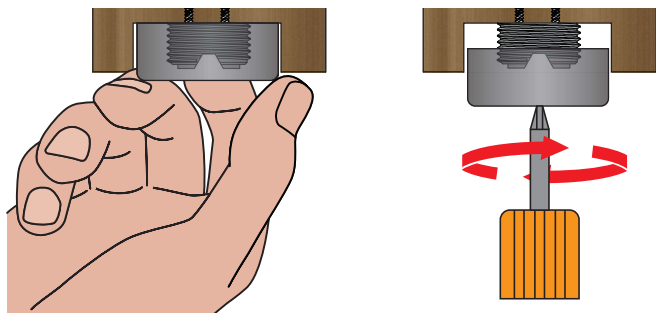

- Cross hole allows screwdriver adjustment in confined spaces.
- Surface-mounted design; no recess machining is required.
- Diameter 25 mm; suitable for many furniture applications.
- Easy installation and adjustment with a standard screwdriver.
- Durable POM material for indoor use.
- Adjustment range: 5 mm.
- Finish: White / Black. Material: POM.
- Recommended screw: round-head or pan-head dia. 3.5 mm.

Warnings

- Static load only. Avoid impact and shock loads.
- Do not use for chairs, sofas or applications with expected shock loads; use only with the cap tightened.

New adjuster with cross hole

Adjust with a screwdriver where finger access is limited

Specifications

Unit: mm

Product No.	Description	Load (kg)	Qty
B572-25-WH	White	150	240
B572-25-BL	Black	-	-
B572-25-PL	WH / BL (seat)	-	-
B572-25-CP	WH / BL (cap)	-	-

If adjustment becomes difficult, tighten the screw of the adjuster seat so it does not wobble.

Caution: using an impact driver or overtightening the screw may make adjustment difficult.
